5 KINDS OF NONFICTION

WHAT IS IT?

The 5 Kinds of Nonfiction classification system differentiates nonfiction books by their writing and design styles. The system helps librarians and educators expand and balance their nonfiction collections and provide a broad array of titles that appeal to different types of readers. See the five types on the following page.

WHO CREATED IT?

Award-winning author Melissa Stewart, in collaboration with educators and librarians.

WHY?

Studies show that educators tend to gravitate toward narrative nonfiction, but many kids are drawn to other, more expository types of nonfiction. This system helps students identify and select books they like, predict the type of information they will find in a book, and use the books for specific purposes.

WHERE CAN I FIND NONFICTION BOOKS BY TYPE?

Lerner has classified most of our nonfiction books using the 5 Kinds of Nonfiction system. In this catalog, look for the symbol with the first letter of a category in the center. Some books may contain elements from two different categories; these are blended nonfiction titles. You can also visit **lernerbooks.com/5KNF** to search by category.

Note that books that deliver factual information but strongly use fictional elements—such as invented dialog or scenes, talking animals, or fictional characters—are not included in this classification system. These books have the text type "informational fiction."

HOW CAN I LEARN MORE?

Visit the Educators section of Melissa's website at melissa-stewart.com or read Melissa's professional development books to learn more about 5 Kinds of Nonfiction and nonfiction writing. These books are available to order from **lernerbooks.com**.

I started the **Read Woke**™ challenge in response to the needs of my students. I want my students to read books that challenge social norms, give voice to the silenced, and seek to challenge the status quo. I believe students have a right to know about the issues that are plaguing our society. I believe that they have a right to hear the truth.

I created **Read Woke Books** because I want our students to be knowledgeable and compassionate citizens. They will be the leaders of our society soon, and they need to be equipped with knowledge so they can treat others with the dignity and respect they deserve. And in return, they will be treated with respect.

When students learn how history impacts our lives today, they can take part in changes to make our world a better place for all.

Fashion Rules!

A Closer Look at Clothing in the Middle Ages

During the Middle Ages, society created fashion rules that made it easy to identify a person's social class. From shoe lengths to hat height, the laws controlled what people could and could not wear.

First Avenue Classics *transform unabridged versions of literary staples into compelling multi-user digital editions, making the books accessible from any digital device.*

Instead of annually resupplying lost books from print collections of assigned classics, purchase a multi-user eBook once and have it for years to come. Multi-user access covers the entire school, allowing titles to be simultaneously used for classroom assignments, book club picks, and independent reading. Each school owns the eBooks forever—no hosting or subscription fees apply.

Students and educators can easily navigate the fixed-format pagination and hyperlinked table of contents. When available, original illustrations are also featured.

First Avenue Classics eBooks come with:

MARC record links: Students can access purchased titles directly from your library catalog. MARC records are free with direct orders of $350 or more.

Customized QR code labels: Students simply scan QR codes with a mobile device to instantly access your library's multi-user eBooks—no password needed. QR code labels are also free with orders of $350 or more.

Downloadable capability: With the click of a button, each **First Avenue Classics** eBook can be downloaded to a mobile device for offline reading.

Lerner Publishing Group acknowledges that many classic books contain racist tropes, stereotypes, and language. On our website lernerbooks.com/FAC, we've compiled articles from librarians and educators with recommendations for how to evaluate, discuss, or teach these classics by providing readers with context and critical analysis or pairing classics with books featuring BIPOC voices and authors.
