# **NONFICTION**

Created by award-winning author Melissa Stewart, in collaboration with teachers and librarians, The 5 Kinds of Nonfiction classification system differentiates nonfiction books by their writing and design styles. The system helps educators provide a broad array of nonfiction titles that appeal to different types of readers.

Studies show that educators tend to gravitate toward narrative nonfiction, but many kids are drawn to other, more expository types of nonfiction. This system helps students identify and select books they like, predict the type of information they will find in a book, and use the books for specific purposes.

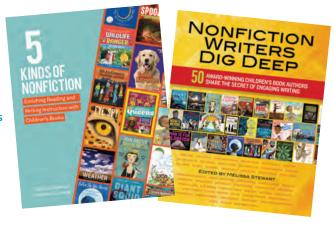

Lerner has classified most of our nonfiction books using the 5 Kinds of Nonfiction system. In this catalog, look for the 🔾 symbol with the first letter of a category in the center. You can also visit lernerbooks.com/5KNF to search by category.

To learn more, visit the Educators section of Melissa's website at melissa-stewart.com or read Melissa's professional development books to learn more about 5 Kinds of Nonfiction and nonfiction writing. These books are available to order from lernerbooks.com.

# EARLY BIRD READERS

# **BUILD LITERACY SKILLS WITH DECODABLE READERS!**

Part of the Early Bird Stories<sup>™</sup> collection, Early Bird Readers are simple, sometimes silly stories aimed at building literacy skills. The text is decodable for beginning readers using phonics strategies, and each book is leveled by expert literacy consultants, taking into account the content, language, layout, and phonics used in the book.

The earliest bands—Pink and Red—feature books with guided reading levels A-D and include finger-tracing activities to build letter recognition.
Readers progress through the levels on the chart (right) as their skills improve.

At higher levels, the books include a recall quiz to build comprehension skills.

The highest reading band—Sliver—brings in nonfiction information, presented by two cartoon aliens, Finn and Zeek, who are visiting planet Earth. Combining photos and cartoon illustrations of the aliens, these books deliver information. A glossary and index at the back of the books support vocabulary development and allow readers to experience the different parts of a nonfiction book.

Early Bird Readers combine literacy supports with whimsy and humor in these entertaining decodable readers! Find out more at lernerbooks.com/early-bird-readers

# Leveled for Guided Reading

Early Bird Stories have been edited and leveled by leading educational consultants to correspond with guided reading levels. The levels are assigned by taking into account the content, language style, layout, and phonics used in each book.

On our website lernerbooks.com/FAC, we've compiled articles from librarians and educators with recommendations for how to evaluate, discuss, or teach these classics by providing readers with context and critical analysis or pairing classics with books featuring BIPOC voices and authors.
