

Make Your Own Word Ladder

Now create your own word ladder below! Write a one-syllable word in the top blank box. Change one letter in that word to create a word for the second box. Continue this pattern to fill in all the boxes!

The diagram shows a central ladder structure with two vertical side rails and five horizontal rungs. To the left of the ladder are three empty rectangular boxes, and to the right are two empty rectangular boxes. Dotted lines connect the boxes to the rungs of the ladder: the top-left box connects to the first rung, the middle-left box to the second rung, the bottom-left box to the third rung, the top-right box to the fourth rung, and the bottom-right box to the fifth rung. The top rung of the ladder is currently empty, serving as the starting point for the word ladder.
