KINDS OF NONFICTION

Created by award-winning author Melissa Stewart, in collaboration with teachers and librarians, The 5 Kinds of Nonfiction classification system differentiates nonfiction books by their writing and design styles. The system helps educators provide a broad array of nonfiction titles that appeal to different types of readers.

Studies show that educators tend to gravitate toward narrative nonfiction, but many kids are drawn to other, more expository types of nonfiction. This system helps students identify and select books they like, predict the type of information they will find in a book, and use the books for specific purposes.

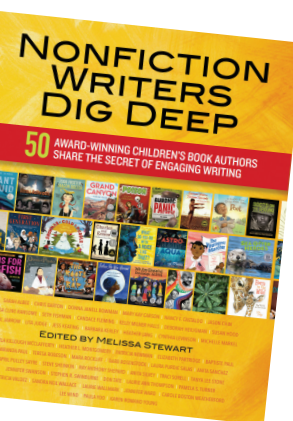

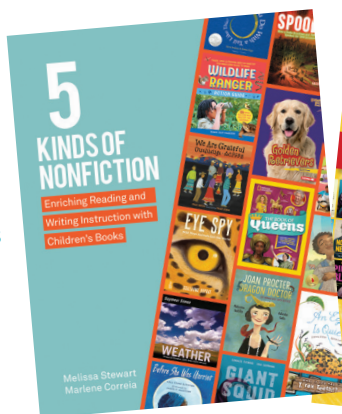

Lerner has classified most of our nonfiction books using the 5 Kinds of Nonfiction system. In this catalog, look for the  symbol with the first letter of a category in the center. You can also visit lernerbooks.com/5KNF to search by category.

To learn more, visit the Educators section of Melissa's website at melissa-stewart.com or read Melissa's professional development books to learn more about 5 Kinds of Nonfiction and nonfiction writing. These books are available to order from lernerbooks.com.

From Austen to Wilde, Lerner Digital Has the Classics Covered

***First Avenue Classics** transform unabridged versions of literary staples into compelling multi-user digital editions, making the books accessible from any digital device.*

Instead of annually resupplying lost books from print collections of assigned classics, purchase a multi-user eBook once and have it for years to come. Multi-user access covers the entire school, allowing titles to be simultaneously used for classroom assignments, book club picks, and independent reading. Each school owns the eBooks forever—no hosting or subscription fees apply.

Students and educators can easily navigate the fixed-format pagination and hyperlinked table of contents. When available, original illustrations are also featured.

First Avenue Classics eBooks come with:

MARC record links: Students can access purchased titles directly from your library catalog. MARC records are free with direct orders of \$350 or more.

Customized QR code labels: Students simply scan QR codes with a mobile device to instantly access your library's multi-user eBooks—no password needed. QR code labels are also free with orders of \$350 or more.

Downloadable capability: With the click of a button, each **First Avenue Classics** eBook can be downloaded to a mobile device for offline reading.

Lerner Publishing Group acknowledges that many classic books contain racist tropes, stereotypes, and language. On our website lernerbooks.com/FAC, we've compiled articles from librarians and educators with recommendations for how to evaluate, discuss, or teach these classics by providing readers with context and critical analysis or pairing classics with books featuring BIPOC voices and authors.
