# KINDS OF NONFICTION

Created by award-winning author Melissa Stewart, in collaboration with teachers and librarians, The 5 Kinds of Nonfiction classification system differentiates nonfiction books by their writing and design styles. The system helps educators provide a broad array of nonfiction titles that appeal to different types of readers.

Studies show that educators tend to gravitate toward narrative nonfiction, but many kids are drawn to other, more expository types of nonfiction. This system helps students identify and select books they like, predict the type of information they will find in a book, and use the books for specific purposes.

Lerner has classified most of our nonfiction books using the 5 Kinds of Nonfiction system. Visit [lernerbooks.com/5KNF](http://lernerbooks.com/5KNF) to search by category.

To learn more, visit the Educators section of Melissa's website at [melissa-stewart.com](http://melissa-stewart.com) or read Melissa's professional development books to learn more about 5 Kinds of Nonfiction and nonfiction writing.

### CHAPTER 3

### STORMING THE NHL

In July of 2015, Connor McDavid signed a three-year contract with the Edmonton Oilers worth \$11.3 million. He played his first game on October 8, 2015. He scored his first goal with the team just five nights later.

About a month into the season, McDavid went down with a shoulder injury. He didn't play for three months. But McDavid still placed third for the NHL Rookie of the Year award.

In 2016, McDavid was named Oilers captain. At 19, he was the youngest team captain in NHL history. He scored his first hat trick in a win over the Dallas Stars a month into the season. Later, McDavid made his first All-Star team. He finished out the season as the league's top scorer and earned his first NHL MVP award.

McDavid flies past Dallas Stars players during a game on November 11, 2016.

**Goats and Sheep**

Wild goats and sheep were abundant in the hills of the ancient Middle East. By domesticating these animals, early Middle Eastern farmers obtained milk, meat, and wool. Because these animals have strong herding instincts, they were easier to domesticate than other animals. They tend to stay in groups and follow lead animals. They rarely try to run away.

Ancient Middle Eastern farmers learned to breed animals with desirable traits. If a farmer wanted big, even-tempered sheep that gave lots of milk, the farmer mated animals with those characteristics. The sheep that were small, aggressive, or poor milk producers might be butchered for meat. Over

This Sumerian panel from the Ishtar Gate in Babylon shows a banquet with a cow and a sheep. The panel is made of wood, lapis lazuli (a semiprecious stone), and shell and dates to 2000 to 2300 BCE.

several generations of sheep, this led to herds of large, docile sheep that gave lots of milk.

**The Plow**

Plows loosen or turn over soil to make long furrows, or trenches, in a field. Farmers place seeds in these trenches so their plants grow in orderly lines. Plowing also helps control weeds and insect pests. Archaeologists think ancient Middle Eastern farmers made the first plows soon after they began farming.
